## B. PROFIT / LOSS PROSPECTS

---

### Effect of the performance of the Underlying(s) on the redemption amount

#### Positive performance:

If all the Underlyings perform positively, the investor realises a positive return.

#### Negative performance:

If at least one of the Underlyings performs negatively the investor may lose some of the investment.

### Maximum Profit at Maturity/ Maximum Loss at Maturity

Maximum Loss: The minimum repayment of the Note is 80% of the Nominal in case at least one of the Underlyings is below 80% of its Initial Level on the Final Fixing Date.

Maximum Profit: The maximum payout to the investor is limited to the highest Early Redemption Value multiplied by the Nominal.

### Note specific risks

This product offers a minimum repayment amount of 80% of the Nominal and you may lose up to the difference between the price paid for the note and 80% of the Nominal.

This product is intended to provide a limited maximum return and a limited exposure to the worst performing underlying, therefore your return will be lower than a direct investment in the underlyings in certain circumstances.

This product may redeem early. Should this occur and you wish to reinvest, you may not be able to achieve a potential return similar to the potential return available under this product.

If a secondary market is offered in the product, the bid/offer spread will be subject to change and any such price is likely to be impacted by changes in factors including (but not limited to) the price of the Underlyings, the volatility of the Underlyings, dividends payable by the Underlyings, prevailing interest rates, the time to maturity of the product and the credit spread of the Issuer.

## C. SIGNIFICANT RISKS FOR INVESTORS

Such information is also contained in sub-section "Note specific risks" of section "B PROFIT / LOSS PROSPECTS".

### RISK INFORMATION

---

**THESE SECURITIES ARE NOT PRINCIPAL PROTECTED. THERE IS A RISK THAT YOU COULD LOSE ALL OF YOUR INVESTMENT.**

**Credit risk:** Investors in Securities will be exposed to the credit risk of Goldman Sachs. If the Issuer and/or Guarantor become(s) insolvent or cannot make the payments on the Securities for any other reason, you will lose some or all of your investment. A decline in Goldman Sachs' credit quality is likely to reduce the market value of the Securities and therefore the price an investor may receive for the Securities if they were to sell them in the market.

**Volatility:** These Securities are volatile instruments. Volatility refers to the degree of unpredictable change over time of a certain variable in this case the price, performance or investment return of a financial asset. Volatility does not imply direction of the price or investment returns. An instrument that is volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is not volatile.

**Leverage:** These Securities may be subject to leverage. Where an investment is subject to leverage, the effective exposure to the underlying asset or payment reference is increased. Leverage may expose investors to increased losses where the value of underlying asset falls. Leverage can be embedded in derivative components of complex financial instruments.

**Combining investment types:** These Securities may have some or all of the characteristics of debt and derivatives instruments. These elements could interact to produce both an enhanced possibility of loss of the initial investment or an enhanced return.

**Investment return:** The price of these Securities and the income generated, if any, may go down or up. You may realize losses on any investment made and you may get back nothing at all. You should read the Programme and the applicable Pricing Supplement for the final terms and conditions and for a description of related risks. Risks include, but are not limited to, the following:

- The market price of the Securities may be influenced by many unpredictable factors, including economic conditions, the creditworthiness of GS, the value of any Underlyings and certain actions taken by GS (see **Conflict of Interests** below). Accordingly, if you sell your Securities prior to maturity you may receive less than the issue price of the Securities.
- In the case of Securities referencing one or more indices or other underlying assets (collectively, the "Underlyings"), changes in the price of the Securities may not correlate to changes in the value of the Underlyings; any declines or gains in the value of one Underlying may be more than offset by movements in the value of other Underlyings.
- The price of these Securities may be adversely affected by trading and other transactions by GS relating to the Securities and/or any Underlyings

- The price of these Securities could be significantly impacted by determinations that GS may make in its sole discretion from time to time as calculation agent and/or index sponsor, as the case may be.

**Relevant Information:** GS may, by virtue of its status as an underwriter, advisor or otherwise, possess or have access to information relating to these Securities, and/or any Underlyings and any derivative instruments referencing them (together "Relevant Instruments"). GS will not be obliged to disclose any such Relevant Information to you.

**No Exchange Guarantee nor Contract Ownership:** These Securities are not guaranteed by an exchange nor does it result in the ownership of any futures contracts.

**No Liquidity:** There may be no market for these Securities. An investor must be prepared to hold them until the Redemption Date. GS may, but is not obliged to, make a market. If it does, it may cease at any time without notice.

**Valuation:** Assuming no change in market conditions or other factors, the value of these Securities on the Issue Date may be significantly less than the execution price on the trade date. If you unwind your investment early, you may receive less than the stated redemption amount.

**Price Discrepancy:** Any price quoted for these Securities by GS may differ significantly from (i) the Securities' value determined by reference to GS pricing models and (ii) any price quoted by a third party.

**Foreign Exchange:** Foreign currency denominated Securities are subject to fluctuations in exchange rates that could have an adverse effect on the value or price of, or income derived from, the investment.

**The occurrence of an FX Disruption Event may lead to delayed payment and/or payment in USD:** if the relevant currency is subject to convertibility, transferability, market disruption or other conditions affecting its availability at or about the time when a payment on the Securities comes due because of circumstances beyond our control, we will be entitled to make the payment in U.S. dollars or delay making the payment.

**Secondary market risks:** The Dealer intends, under normal market conditions, to provide bid and offer prices for this Security on a regular basis. However, the Dealer makes no firm commitment to provide liquidity by means of bid and offer prices for this Security, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices. Potential Investors therefore should not rely on the ability to sell this Security at a specific time or at a specific price.

In special market situations, where the Issuer is completely unable to enter into hedging transactions, or where such transactions are very difficult to enter into, the spread between the bid and offer prices may be temporarily expanded, in order to limit the economic risks of the Issuer.

**Taxation:** Neither the Issuer nor the Guarantor shall be liable for or otherwise obliged to pay any present or future tax, duty, withholding or other similar payment which may arise as a result of the ownership, transfer or exercise of any Securities. Where such withholding or deduction is required by law, the appropriate withholding or deduction shall be made and neither the Issuer nor the Guarantor shall have any obligation to pay any additional amounts to compensate for such withholding or deduction.

**Section 871(m) of the U.S. Internal Revenue Code:** The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30% (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Securities, the Securities will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Securities for United States federal income tax purposes.

## DISCLAIMER

---

**Conflict of Interests:** GS may from time to time be an active participant on both sides of the market for the Relevant Instruments at any time and have long or short positions in, or buy and sell Relevant Instruments (on a principal basis or otherwise) identical or related to those mentioned herein. GS' hedging and trading activities with respect to the Securities may affect the value of other Relevant Instruments and vice versa. GS may be calculation agent or sponsor of Underlyings and as such may make determinations affecting the value of the Securities.

**No Offer:** This term sheet has been prepared for discussion purposes only. It is not an offer to buy the Securities described within or enter into any agreement. Neither GS, nor any of their officers or employees is soliciting any action based upon it. Finalised terms and conditions are subject to further discussion and negotiation and also to GS internal legal, compliance and credit approval.
